See article that ran yesterday. Looks like they covered the macro issue of many mines. I think the CBS reporter is going to want to hear about Iron King and Leviathan more specifically, since they are the two that are most similar to Gold King. John L – can you provide someone to brief Jared on those sites?

Thousands of mines with toxic water lie under West

DENVER – Beneath the western United States lie thousands of old mining tunnels filled with the same toxic stew that spilled into a Colorado river last

week, turning it into a nauseating yellow concoction and...
